

Excel 2019 - Part 1

Summary

Length: 8 hours Level: Foundational

This course aims to provide you with a foundation for Excel knowledge and skills, which you can build upon to eventually become an expert in data manipulation. Excel can help you organize, calculate, analyze, revise, update, and present your data in ways that will help the decision makers in your organization steer you in the right direction. It will also make these tasks much easier for you to accomplish, and in much less time, than if you used traditional pen-and-paper methods or non-specialized software.

Learning Objectives

Upon successful completion of this course, you will be able to create and develop Excel worksheets and workbooks in order to work with and analyze the data that is critical to the success of your organization.

You will:

Get started with Microsoft Office Excel 2019.

Perform calculations.

Modify a worksheet.

Format a worksheet.

Print workbooks.

Manage workbooks.

Course Outline
