

Administering Cisco UC Manager and Unity Connection (ACUCM w/ AUC)

COURSE OVERVIEW

Administering Cisco Unified Communications Manager (ACUCM) v12.5 provides system administrators and networking professionals with an understanding of the Cisco Unified Communications Manager System. This course teaches the concepts of IP telephony based in system administration, including its function, features, and configuration. This is an entry-level course that begins with the basic concepts of IP telephony and very quickly moves the learner forward into an understanding of system concepts: clustering, creation of phones and users, route plans, digit manipulation, media resources, and phone features, which are all important to supporting IP telephony in the enterprise network.

The course is geared to individuals that will be using and managing the system and performing administration for Level 1 and Level 2 support. Level 1 support is geared toward supporting phone users and making moves, adds, and changes to the desktop phone environment. Level 2 support is oriented to supporting changes in the organization, such as opening new office locations or relocating departments. The course does not cover issues of initial deployment, new cluster deployment or international deployments. Also, the course does not cover issues with the underlying network that involve routers, switches, or Cisco IOS software configuration.

Administering Cisco Unity Connection (AUC) describes Cisco Unity Connection administration features, options, and configuration settings as they apply to the administrator. The course presents Cisco Unity Connection with the focused goal of providing the administrators with the necessary skills to perform their day-to-day job functions using the Cisco Unity Connection system.

WHO WILL BENEFIT FROM THIS COURSE?

The primary audiences for this course are:

- Phone Network Administrators
- Data System Administrators
- Entry-level Network Engineers
- IT Support Personnel
- Helpdesk Support Staff

The secondary audience includes:

- Learners looking to gain a technical overview of Cisco Unified Communications Manager
- Introduction to Cisco Unity Connection for Network Engineering Staff Personnel

PREREQUISITES

- Basic knowledge of IP and networking or voice networks is suggested, but not required
- Basic knowledge of the Windows desktop environment
- Basic understanding of fundamental terms and concepts of computer networking, including LANs, WANs, and IP switching and routing.
- Basic knowledge of traditional PSTN operations and technologies, including PBX and voice-mail administration tasks
- Basic understanding of Cisco Unified Communications Manager

COURSE OBJECTIVES

- Describe the Cisco Unified Communications Manager network, service, and features
- Understand the importance of and configuration of redundancy and high availability in the enterprise network
- Describe user configuration and the user web interface
- Explain basic phone options and the use of BAT
- Explain the route plan and on-net/off-net calling
- Describe the various media resources, including conferencing and MOH
- Describe the basic phone features and use of hunt groups
- Explain the function of Cisco Unity Connection and the various interfaces that are used to access the system
- Describe the components that are required for user call processing by Cisco Unity Connection
- Implement the various features and options that are available to users in Cisco Unity Connection
- Use the various applications, tools, and reports that are available in Cisco Unity Connection

COURSE OUTLINE

Module 1: Introduction to IP Telephony

- Lesson 1: Exploring IP Telephony
- Lesson 2: Describing Deployment Models
- Lesson 3: Understanding Advanced Multisite Features

Module 2: Defining the Basic Configuration

- Lesson 1: Logging In to Cisco Unified Communications Manager
- Lesson 2: Examining Basic Server Configuration
- Lesson 3: Describing Multilevel Administration
- Lesson 4: Configuring DRS Backup and Restore Procedures

Module 3: User Administration

- Lesson 1: Understanding User Configuration
- Lesson 2: Using the User Web Pages

Module 4: Exploring Phone Registration and Cisco Unified IP Phones

- Lesson 1: Configuring System Parameters
- Lesson 2: Supporting Cisco Unified IP Phones
- Lesson 3: Exploring Phone Registration and IP Phone Communications
- Lesson 4: Utilizing the Bulk Administration Tool (BAT)

Module 5: Basic Route Plan Configuration

- Lesson 1: Implementing Dial Plan Connectivity
- Lesson 2: Creating Route Plans

Module 6: Route Filters and Digit Manipulation

- Lesson 1: Configuring Translation Patterns and Route Filters
- Lesson 2: Implementing Digit Manipulation

Module 7: Class of Control

- Lesson 1: Defining Class of Control
- Lesson 2: Using Class of Control Features

Module 8: Understanding Media Resources

- Lesson 1: Defining Media Resources
- Lesson 2: Exploring Media Resource Management

Module 9: Features and Services

- Lesson 1: Describing Basic Features
- Lesson 2: Exploring Hunt Groups
- Lesson 3: Describing Phone Services

Labs for ACUCM:

- Lab 2-1: Navigating Cisco Unified Communications Manager
- Lab 2-2: Configuring CUCM Basic Settings
- Lab 3-1: Working with User Accounts
- Lab 4-1: Configuring the System to Support Cisco IP Phones and Jabber Clients
- Lab 4-2: Using the CUCM Bulk Administration Tool to Add Phones
- Lab 5-1: Configuring Basic Dial Plan Elements
- Lab 6-1: Configuring Simple Digit Manipulation in CUCM
- Lab 7-1: Implementing Calling Privileges and Restrictions
- Lab 8-1: Configuring Media Resources, MeetMe and Conference Now
- Lab 9-1: Configuring User Features, Call Pickup and Intercom
- Lab 9-2: Configuring Hunt Groups and Call Coverage
- Appendix: Integrating CUCM with Cisco Unity Connection Voice-Mail

AUC Course Outline:

Module 1: Introduction to Cisco Unity Connection

- Lesson 1: Overview of Cisco Unity Connection
- Lesson 2: Navigating Cisco Unity Connection
- Lesson 3: Understanding Call Handlers, Users, and Call Flow

Module 2: Configuration of Users and Contacts

- Lesson 1: Explaining Users and Contacts
- Lesson 2: Managing Multiple Users

Module 3: Implementation of Features

- Lesson 1: Implementing the Dial Plan
- Lesson 2: Understanding User Features
- Lesson 3: Accessing Voice Messaging and User Features
- Lesson 4: Managing Distribution Lists

Module 4: Use of Cisco Unity Connection Applications, Tools and Reports

- Lesson 1: Designing an Audiotext Application
- Lesson 2: Using Cisco Unity Connection Tools and Reports
- Lesson 3: Using the DRS

Labs for AUC:

- Lab 1-1: Verifying Connectivity and Call Flow
- Lab 1-2: Verifying and Configuring Call Handlers
- Lab 1-3: Working with Users and Extensions in Voice Mail
- Lab 2-1: Preparing to Configure Users and Contacts
- Lab 2-2: Managing Users and Contacts
- Lab 2-3: Managing Multiple Users
- Lab 3-1: Implementing the Dial Plan
- Lab 3-2: Understanding User Features
- Lab 3-3: Implementing Integrated Messaging and User Features
- Lab 4-1: Implementing an Audiotext Application
- Lab 4-2: Using Cisco Unity Connection Tools and Reports

WHY TRAIN WITH SUNSET LEARNING INSTITUTE?

Sunset Learning Institute (SLI) has been an innovative leader in developing and delivering authorized technical training since 1996. Our goal is to help our customers optimize their technology Investments by providing convenient, high quality technical training that our customers can rely on. We empower students to master their desired technologies for their unique environments.

What sets SLI apart is not only our immense selection of trainings options, but our convenient and consistent delivery system. No matter how complex your environment is or where you are located, SLI is sure to have a training solution that you can count on!

Premiere World Class Instruction Team

- All SLI instructors have a four-year technical degree, instructor level certifications and field consulting work experience
- Sunset Learning has won numerous Instructor Excellence and Instructor Quality Distinction awards since 2012

Enhanced Learning Experience

- The goal of our instructors during class is ensure students understand the material, guide them through our labs and encourage questions and interactive discussions.

Convenient and Reliable Training Experience

- You have the option to attend classes live with the instructor, at any of our established training facilities, or from the convenience of your home or office

- All Sunset Learning Institute classes are guaranteed to run – you can count on us to deliver the training you need when you need it!

Outstanding Customer Service

- You will work with a dedicated account manager to suggest the optimal learning path for you and/or your team
- An enthusiastic student services team is available to answer any questions and ensure a quality training experience
